Welcome

Hello! My name is Danila. I am The Bonch-Bruevich Saint Petersburg State University of Telecommunications student. I like programming, system administration and especially everything related to cloud infrastructures, so I am looking for interesting projects and a good community for my studies.

Education

The Bonch-Bruevich Saint Petersburg State University of Telecommunications

2022 - now

Faculty of Information Technologies and Software Engineering

- **Basic higher education:** Software Engineer

Experience

Networking Course

Feb 2024 – Jun 2024

I have successfully finished the course “Fundamentals of Network Technologies” from Eltex Academy and received the graduation certificate.

- Hands-on experience with Cisco equipment, including configuring and managing devices
- Understanding the principles of the OSI model at all layers
- Knowledge of how basic network protocols work

Participant Of The Intensive

*Sep 2024 – Oct 2024
Russia, Veliky Novgorod*

I completed the intensive 26-day selection course at Sber “School 21” and I developed 16 individual and 3 group projects in C programming language.

- Team Software Development Experience
- Experience using Git and GitLab on real projects
- Proficiency in Bash for task automation and environment setup
- Experience with Linux, including administration and development

Skills

Programming Languages: Java, C/C++, Nix

Operating Systems: Linux (I especially love NixOS)

Databases: MySQL, MongoDB

DevOps Tools: Docker, Git, GitLab CI/CD
